The State of Michigan's Department of Technology, Management and Budget—Procurement has a contract portfolio of 1,100 multi-year contracts worth billions of dollars. To help local business owners win state contracts, Automation Alley is hosting a Contract Connect seminar.

Representatives from the state will speak on topics such as bidding opportunities, how to register with the state as a vendor, free resources for research and bid preparation, and navigating the State contracting process.

In addition, a speaker from the regional Procurement Technical Assistance Centers (PTACs) will present information about the variety of free services available to business owners, including bid matching services and assistance researching and bidding on federal contracts.
